Assignment 2

# Web Design Implementation

Greetings once again! Congratulations on completing your first assignment. We hope you enjoyed it. The second assignment is now at hand, and here are the guidelines. Please read them carefully.

## Objective

In this assignment, you are supposed to implement a simple and responsive portfolio web application and get it looking as close to the design provided as possible.

## Description

- Implement design using **HTML**, **CSS** and **JS**.
- Solution should be responsive.
- Your solution must be fully functional and creatively crafted to make this design come to life.
- Icons used are **Font Awesome v.6 Icons** (https://fontawesome.com/icons) and Font Family used is **Montserrat** (https://fonts.google.com/specimen/Montserrat?query=montserr).
- A complete list of resources is attached to this document.

## Output

Please note that you have 5 days to work on your assignment starting today, so you are supposed to submit your work before **Tuesday 29 November, 2022** at noon.

To complete your assignment, please create your own repository on GitHub and commit your work to it. When you are ready for us to look at it, send us a link to your repo via WhatsApp message at the following phone number: +96171095262, and feel free to contact us if you need any assistance during your assignment.

Good Luck!
